Question	Your Answer	Correct Answer	Status
1. What is the primary purpose of a REST API?	To enable communication between systems using HTTP	To enable communication between systems using HTTP	Correct
2. Which method is used for updating in a REST API?	POST	PUT	Incorrect
3. In PostgreSQL, purpose of a REFERENCED KEY constraint?	To link tables via a referenced column	To link tables via a referenced column	Correct
4. How does PostgreSQL handle transactions?	Using ACID properties	Using ACID properties	Correct
5. In Node.js Express, what does 'middleware' do?	Manages database connections	Processes requests before route handlers	Incorrect
6. What is the role of 'sequelize' in Express?	Manages middleware functions	Manages middleware functions	Correct
7. In Django, what is the purpose of the 'ORM'?	To map database tables to Python objects	To map database tables to Python objects	Correct
8. How does Django handle database migrations?	Using 'makemigrations' and 'migrate' commands	Using 'makemigrations' and 'migrate' commands	Correct
9. In ReactJS, what is a 'hook'?	A routing mechanism	A function to manage state and lifecycle	Incorrect
10. What does 'useEffect' do in ReactJS?	Renders static content	Manages side effects in functional components	Incorrect
11. What is Auth primarily used for?	Authentication and authorization	Authentication and authorization	Correct
12. How does Auth implement single sign-on (SSO)?	Using a centralized identity provider	Using a centralized identity provider	Correct
13. Significance of a candlestick chart?	Shows price movements over time	Shows price movements over time	Correct
14. What does the VIX index measure in the market?	Market volatility	Market volatility	Correct
15. In a REST API, what does 'Hypermedia As The Engine Of Application State' mean?	Hypermedia As The Engine Of Application State	Hypermedia As The Engine Of Application State	Correct
16. Purpose of PostgreSQL's 'EXPLAIN ANALYZE'?	To analyze query execution plans	To analyze query execution plans	Correct
17. In ExpressJS, what is 'res.json()' used for?	To send a JSON response	To send a JSON response	Correct
18. What is Django's 'CSRF' protection?	A user authentication system	A defense against cross-site request forgery	Incorrect
19. In ReactJS, what is the 'Virtual DOM'?	A lightweight copy of the DOM for diffing	A lightweight copy of the DOM for diffing	Correct
20. How does Auth handle JWT validation?	By verifying token signatures	By verifying token signatures	Correct
21. What is a short squeeze in the stock market?	A rapid price increase due to short sellers covering	A rapid price increase due to short sellers covering	Correct
22. Role of a circuit breaker in fintech?	To halt trading during volatility	To halt trading during volatility	Correct
23. What is the purpose of a REST API endpoint?	To provide a specific resource or action	To provide a specific resource or action	Correct
24. In PostgreSQL, what is a 'materialized view'?	A stored query result	A stored query result	Correct
25. What is the use of 'async-await' in NodeJS?	To handle asynchronous operations	To handle asynchronous operations	Correct

Generate Test

Congratulations! You have passed the quiz. Check updates regularly in Blueflow Workspace. Your Data Analyst internship will commence soon, involving tasks such as web application development, ETL, BI Dashboards, Data Cleaning, API design, machine learning, and full-stack development. Stay tuned for further instructions.
